Re: Notification of the Unbanning of the Vehicle Imports in Algeria

Dear Dr Lamprecht

This serves to notify National Association of Automobile Manufacturers of South Africa (NAAMSA) that the Algerian authorities have announced the unbanning of the import of vehicles in Algeria.

The announcement came as the Government of Algeria published the Specification on Imports and Manufacturing of New Vehicles, which was adopted by the Algerian Council of Ministers on 25 July 2020.

The Specifications on Imports and Manufacturing of New Vehicles (French version) are attached hereto for your perusal.

As such, it would be appreciated if this information could be distributed to the members of your Association.

Best regards,

Dr Patrick Rankhumise

Charge d'Affaires
